MINOTAUR SUPER DUTY AXLES

Providing you with the most complete driveline coverage in the ATV & UTV Aftermarket.

MotorMasterPowersports.com

Providing the most complete driveline coverage in the ATV & UTV aftermarket

UNIVERSAL JOINTS

Motor Master Powersports provides the most extensive U-Joint coverage in the ATV and UTV market! With almost 30 different U-Joint kits available it's very likely we have the U-Joint you need for your Artic Cat, Can-Am Bombardier, Honda, Japanese Mini trucks, Kawasaki, Kubota, Polaris, Suzuki, Yamaha and More...

C.V. JOINT KITS

Motor Master Powersports has a huge selection of replacement outboard and inboard CV joints. Don't feel you need to spend extra money on a half shaft or complete axle assembly? Replacing the CV joint could be the best option to quickly get you back on the trail. Our CV joints are designed to fit your OEM axle bars and meet or exceed OEM quality.

C.V. HALF-SHAFTS

Motor Master Powersports Half-Shafts meet or exceed OEM quality using fully assembled outboard CV joints installed on high strength axle bars with the MMPS Dura-Boot for maximum protection against all conditions! The most common axle failure is a bar breaking or outboard (wheel) joint failure so it only makes sense to reuse the good parts that you can from your original axles... Half-Shafts require you to remove the undamaged inboard CV joint from your OEM axle and install it on the MMPS half shaft, with the new boot and grease that is included. This will insure you will spend more time on the trail and not the trailer...

MINOTAUR SUPER DUTY AXLES

OEM axles were not designed to continually operate at the severe angles created by suspension lifts. Throw in the strain of turning big wheels with big power and it's a recipe for axle breaking disasters. Minotaur Axles handle these conditions with ease, and can accommodate a variety of lifts from 2"-10" and up to 40 degree angles.

C.V. BOOT KITS

Protect Your Investment with DURA-BOOT!

Motor Master Powersports boot kits only use Dura-Boots, the CV boot that's made in the USA. Dura-boots are made with material specially formulated to withstand the most severe trail and temperature conditions. Dura-boots are super-durable, super long lasting and offer the best protection in the industry!

C.V. REBUILD KITS

Motor Master Powersports Rebuild Kits give you the capability to repair OEM CV joints. Have a hard to find application? Rebuilding CV joints is a great option, designed to allow you to retain the original outboard or inboard housings and rebuild the inner components, you'll save time and money and get back on the trail!

COMPLETE C.V. AXLES

Motor Master Powersports Complete Axle Assemblies are built to meet or exceed OEM quality. We use fully assembled outboard and inboard joints installed on a high strength axle bar using the MMPS Dura-Boot for maximum protection against all conditions! Don't mess with the rest... With our accurate cataloging and technical experts always on hand to answer your questions or concerns you can buy with confidence, knowing that you're going to get the axle you need to get you on the trail in a hurry. MMPS carries a huge inventory of all the components required to build all the axle shafts we offer to assure that when you need it.... We will have it!!

THE NEXT EVOLUTION

IN AXLE PERFORMANCE IS...

MINOTAUR SUPER DUTY AXLES

OEM axles were not designed to continually operate at the severe angles created by suspension lifts. Throw in the strain of turning big wheels with big power and it's a recipe for axle breaking disaster. Minotaur Super Duty Axles handle these conditions with ease, and can accommodate a variety of lifts from 2" – 10" while allowing operation angles up to 40°.

Minotaur CV joints slide on the bar splines and provide more than 2" of overall travel to work on any terrain.

Axles feature robust CV housings, bars, cages

and races produced with ultra-strong

chromoly steel to provide twice the

strength of OEM axles. Additionally,

our proprietary top secret heat

treat process is used on

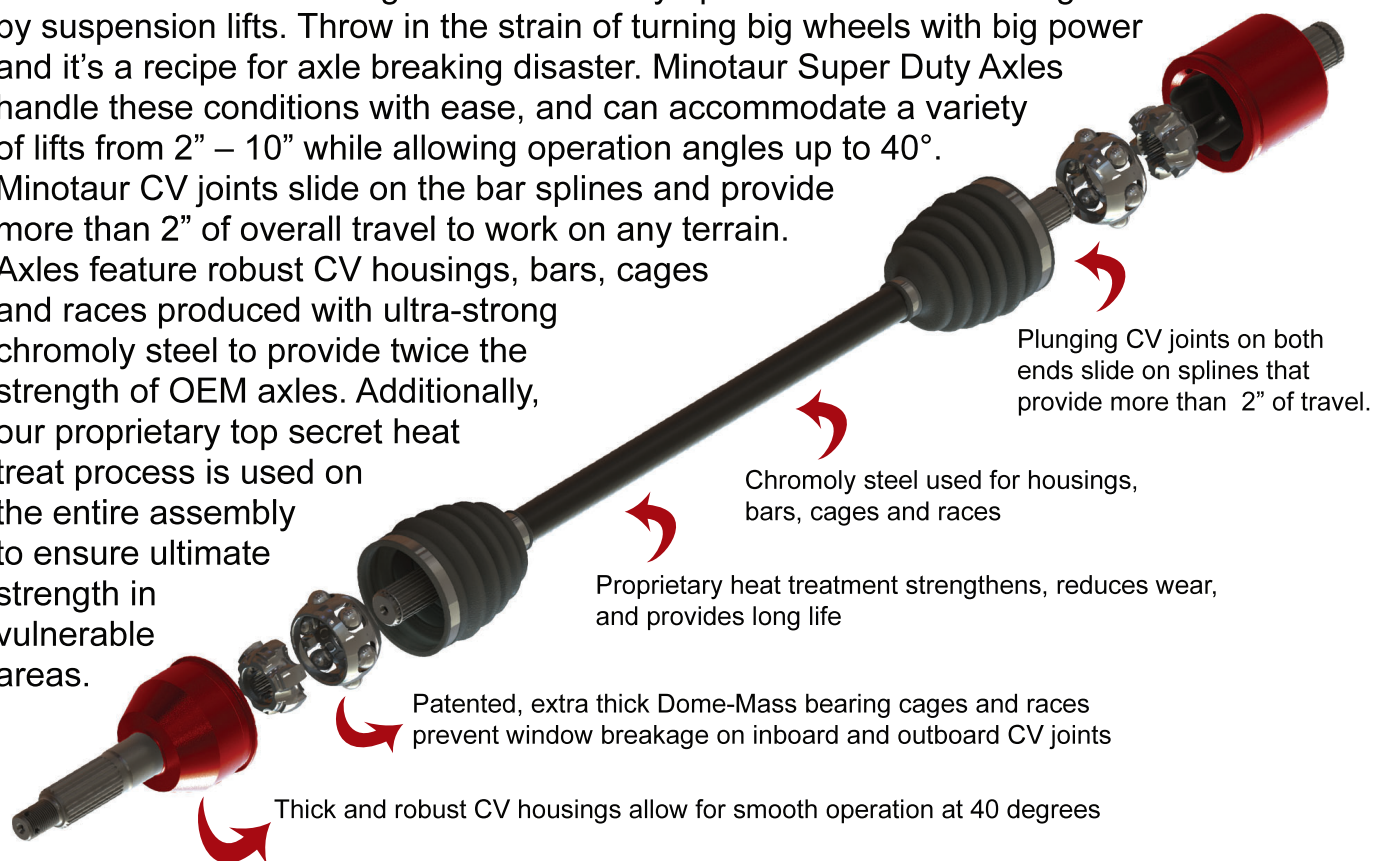

the entire assembly

to ensure ultimate

strength in

vulnerable

areas.

LOOK AS GOOD AS THEY PERFORM!

FINISHED IN ULTRA-RUGGED RED AND BLACK POWDER COATING.

Minotaur CV joints are protected from dirt and contaminants by Motor Master's exclusive Dura-boot, which is made in-house from a blend of special thermoplastic materials that will withstand the most severe trail and temperature conditions. Duraboos are super-durable, super long lasting and with our Husky™ HTS-2 moly performance grease, you get the best protection in the industry!

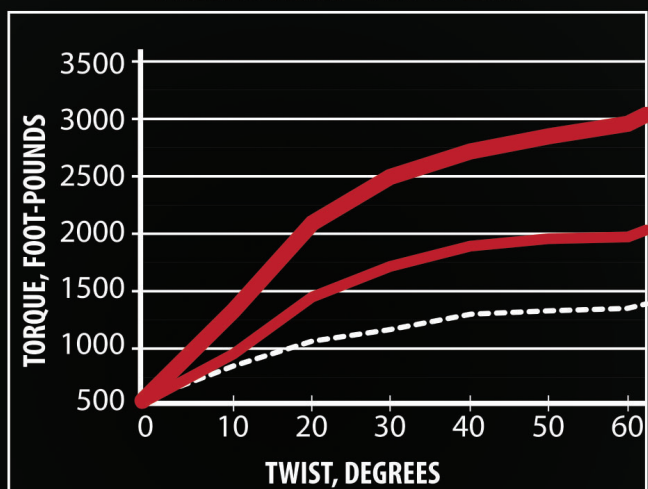

**RIDE CONFIDENTLY
